Make Every Breath Count.
by Dr Josh since 2017

ABOUT O2GENES

Established in 2017, with more than 6 years of experience in the oxygen wellness and spa industry. O2genes prides itself on healthy living through nature's finest - oxygen. We believe in enhancing the way we rest to unravel our true physical performance and cognitive abilities.

Evidence-Based

Our commitment to excellence drives us to offer products and services supported by evidence-based research and data. Rigorous due diligence, including in-depth research on medical journals, enables us to deliver accurate and reliable information. Our Cocoons® are specially curated by [Dr Josh](#).

100% Safety

We only work with the best materials, technology & industry experts to deliver the gold standard of Hyperbaric Cocoon® to you. Ensuring exceptional quality standards is of utmost importance to us, especially when it comes to the air you breathe in.

Service Excellence

Welcome to our world-class service that goes above and beyond to deliver an unparalleled experience from end to end. Our dedicated team is here to cater to your every need, ensuring that every step of your journey is seamless and enjoyable.

Grounded in Research & Evidence

EVIDENCE-BASED

Cocoons® are backed by research, client and doctor testimonials, as well as concrete evidence demonstrating the efficacy of our protocols and technology across various cases, making them thoroughly researched and evidence-based solutions.

Testimonials

“I love how the Cocoon® is so spacious inside! I don’t feel claustrophobic at all!” - Client J

“The Evexia Cocoon® is suitable for me and my child who has special needs, and he enjoys being inside!” - Client D

“I use the Cocoon® everyday to rejuvenate myself and feel more refreshed.” - Client A

“ I am a Physiotherapist and my clients have shared their sleep improved, and they feel more refreshed after using the Cocoon®” - Client P

“ It is a good way to recover and feel more energised, especially for those that are active in sports” - Client F

Elite Excellence

Gold-Class Standard

Built to follow NFPA_99 and ASME-PVHO-1 requirements, certified by ISO 9001 and CE 2001 95.

American TPU soft shell, Stainless Steel metal frame, Premium Aluminum-Alloy Valves, German-Made WIKAI Pressure Gauges, Japanese-Made YKK Zippers

Made of TPU (Thermoplastic Polyurethane), the optimal choice due to its remarkable combination of durability, flexibility, and biocompatibility. It can withstand pressure changes, and is safe and hypoallergenic

Cocoons® are tested to its limits and can withstand up to 2.0ATA. With margins of safety, we set the maximum pressure safely at 1.5ATA with two safety relief valves for redundancy and added security.

Air-Conditioner with rapid water cooling system and dehumidifier to eliminate dust and prevent the buildup of mould and bacteria.

All-Encompassing Safety Features - Two automatic Pressure Safety Relief valves, Emergency Safety Control valve, Two Pressure Gauges.

Automatic Timer and Pressure Control to facilitate ease of Cocoon® usage by customising it to individual needs and requirements.

High-Efficiency Particulate Air (HEPA) filters and carbon filters connected with laboratory grade hoses to improve air quality, reduce allergic reactions, remove virus and bacteria, eliminate odour and reduce dust build-up for optimal comfort.

Unparalleled Performance

Optimal Performance

Best-In-Class at 1.4ATA - 1.5ATA, as recommended by medical research studies for optimal efficacy

Pressure Swing Absorption (PSA) Technology for strong and steady stream of up to 96% Pure Oxygen

Crafted to endure a lifetime. Integrates premium features, accessories, and cutting-edge technology

Silent Relief Valves with noise levels of <65 decibels

State-Of-The-Art Pneumatic System with Strong and Steady Oxygen flow of 10L/min and Air flow of 120L/min.

User Friendly - Single user is able to operate the Cocoon® at ease and monitor the pressure while inside

Low Running Cost and Low Maintenance. Electrical consumption similar to that of an air-conditioner unit. Utilizing an oxygen concentrator obviates the necessity for oxygen tank replacement and alleviates safety concerns.

Premium Comfort and Design

Luxurious Design

Designed & Assembled in Singapore by Dr. Josh

Implementing two-way communication enables seamless interaction with users within the Cocoon®

Wide Fortified Window Panes to allow light to enter, hence preventing claustrophobia

Ambient Mood Lighting with customisation options for reading or relaxing

Natural Aromatherapy Scent to reduce stress, enhance relaxation and improve sleep quality

Compatible with Portable Electronic Devices

COMFORT

Crafted from premium quality foam mattress, our Cocoons® feature a uniquely curved bottom, ensuring a snug and comfortable fit within the Cocoon® structure. This design detail enhances both the ergonomic support and overall aesthetic appeal of our Cocoons®, creating an inviting space for relaxation and rejuvenation.

Features of Mattress
